## Biography/History

---

Northeastern Hospital began in 1911 as a dispensary in the Kensington section of Philadelphia. While there were hospitals in relatively close proximity, traffic and congestion led the dispensary to build a new building and rebrand as a hospital in 1918. Its first patients were filled with influenza victims. Northeastern Hospital School of Nursing (NEHSON) was founded in 1922 and it's first students in 1923 with Miss Lillian E. Wilsey as its first Director. The first class of three students graduated in 1926, with a 3 year program of study, including 4 months of preliminary observation. Since that time, more than 1,200 students have received Diplomas from the school.

The Alumni Association was organized in 1930. Its members exhibit a continuing interest in educational

and social opportunities for the student nurse and have provided ongoing support to the school. NEHSON will close its doors in May 2016.

### ST. MARY'S HOSPITAL.

---

---

**Custodial History note**

These student records were given to Northeastern Hospital by Neuman University. Neuman received the documents from St. Mary's School of Nursing when it closed its doors in the late 1970s. During the 2000s the records were transferred to Northeastern. The records are not complete, particularly RN and LPN classes during the 1960s-1970s.

**Biographical/Historical note**

St. Mary's Hospital, located in Philadelphia PA, was founded by the Sisters of the Covent of St. Clare's and opened its doors on December 10, 1860. By 1867, the hospital moved to a larger location and by 1869, the number of patients and demands of care caused the Sisters to apply for and were granted a formal organization for the hospital. Prior to the opening of its school of nursing in 1901, nursing care was primarily performed by the Sisters and doctors with lectures held routinely to promote quality care. The first class consisted of 5 Sisters and 6 lay women as a 3 year program. The school of nursing was closed in the 1970s. The hospital closed in 1988.
