Summary Information

Repository	Hagley Museum and Library: Audiovisual Collections and Digital Initiatives Department
Creator	Radio Corporation of America. News and Information Department.
Title	RCA News and Information Department photographs
Call number	68
Date	1860-1985, bulk 1900-1983
Extent	37.25 linear feet
General Physical Description	3230 negatives : b&w ; 35mm. 5340 negatives : b&w ; 120. 87 negatives : b&w ; 70mm. 29 negatives : color ; 4x5 in. 8885 negatives : b&w ; 4x5 in. 161 negatives : b&w ; 8 x 10 in. 1 negative : color ; 8 x 10 in. 9 photographic positives : color ; 4 x 5 in. 2000 photographic prints : b&w ; 8 x 10 in. 28 photographic prints : color ; 8 x 10 in. 198 photographic prints : b&w ; 4 x 5 in. 211 photographic prints : b&w ; 9 x 11 in. 549 contact sheets : b&w ; 8 x 10 in. or smaller. 2866 slides : color ; 35mm.
Language	English
Abstract	The RCA News and Information Department served a public affairs role for RCA corporate headquarters at Rockefeller Center in New York City. The collection contains photographs and negatives created or commissioned by RCA that document much of RCA's history and activities. Many of the photographs were organized by the News and Information Department into subjects that cover the history of radio, television, communications, and consumer electronics, with a particular emphasis on RCA's role in that history. Additional photographs are grouped by RCA division and document their specific achievements, with

the RCA laboratories being especially prominent. This collection also contains a large number of photographic negatives that were taken by the public relations firm, Carl Byoir & Associates, which showcase many of RCA's products, events, and facilities.

Biography/History

The RCA News and Information Department served a public affairs role for RCA corporate headquarters at Rockefeller Center in New York City. This collection is entirely photographic, with very few records to contextualize how they were used, let alone to help us better understand the operations or history of the department. One exception to this is a letter from RCA Photo Librarian and Staff Photographer, Frida Schubert, that is dated July 25, 1986, which was sent to Phyllis Smith at the David Sarnoff Research Center in Princeton, New Jersey. In the letter, Schubert notes the upcoming closing of the News and Information Department on July 31 and looks back on her work of the past nineteen years. The noteworthy duties she describes are: photographing feature stories for news releases; in-house assignments for RCA's Communicate magazine and the annual report to shareholders; portrait and candid photographs of key executives and officers; product photography for press kits and periodicals; preparing slides for presentations; and documenting special events, such as press conferences, shareholder meetings, exhibits, and award ceremonies. Schubert also notes in an attached resume that she created and cataloged the RCA Photo Library, which contained 80,000 color and black-and-white images. A follow up letter outlines how these photographs were divided and shipped to different RCA divisions based on subject relevance. Therefore, the approximately 20,000 photographs and negatives found in this collection represent about a quarter of the original photo library.

RCA also retained the services of the public relations firm, Carl Byoir & Associates for many decades. In addition to serving as their public relations counsel, Carl Byoir & Associates was hired to photograph many of RCA's public events and marketing efforts.

Scope and Contents

This collection consists of photographs, negatives, and contact sheets that document much of RCA's history and activities. The collection spans the history of radio, television, communications, and consumer electronics, along with many additional technical achievements pioneered by RCA. Many of the photographs are accompanied by short news briefings or captions associated with the subject of the photo.

Numerous events are also documented, such as corporate meetings, award ceremonies, product and technology demonstrations, celebrations, and World's Fairs.

The collection is arranged into ten series: Early Radio, Radio Broadcasting 1920s - 1940s, Consumer Electronics 1920s - 1980s, Television History 1920s - 1980s, General Electric Co. 1917-1930, RCA Communications 1920s-1940s, RCA Labs R&D 1920s-1970s, RCA Divisions (excluding RCA Labs), RCA Labs 1960s - 1980s, and Carl Byoir & Associates.

The Early Radio series contains photographs that document the history of radio, which includes photographs of early pioneers, Guglielmo Marconi, Dr. Lee deForest, John Ambrose Fleming, and Reginald Fessenden. Also included are photographs of some early radio stations.

The series, Radio Broadcasting 1920s - 1940s, contains photographs of early radio stations, performers and personalities, including conductor Arturo Toscanini.

The Consumer Electronics 1920s - 1980s series contains photographs of radio receivers and marketing materials, particularly for RCA Radiola receivers. One folder of cassette players and recorders from the 1970s and 1980s is also featured.

The series, Television History 1920s - 1980s, features photographs of television cameras and receivers, from both the black-and-white and color eras. The series also contains photographs that document television research and development, manufacturing, and transmission.

The General Electric Co. 1917-1930 series contains photographs of a variety of electron tubes from this period.

The series, RCA Communications 1920s-1940s, features photographs of the Rocky Point, New York transmission station, ship-to-shore wireless, and examples of facsimile transmission.

The RCA Labs R&D 1920s-1970s series contains photographs documenting the research and development of various technologies, such as computer memory, lasers, and electron tubes. Photographs of the David Sarnoff Research Center are found in the folder Public Relations, while another folder contains photographs from the Riverhead, Long Island laboratory.

The series, RCA Divisions (excluding RCA Labs), contains examples of the activities carried out at many of RCA's divisions across the United States and internationally. Well represented divisions include, RCA Astro-Electronics, RCA Missile and Surface Radar, and RCA Victor, although many other divisions are also found in this series. Particularly well documented subjects include microwave communications, microwave radar, satellite and space programs, and missile weapon systems.

The RCA Labs 1960s - 1980s series contains photographs documenting the research and development of various technologies, such as television and video cameras, computers and computer memory, lasers, microwaves, radar, solar energy, solid state technology, and television picture tubes.

The series, Carl Byoir & Associates, is divided into two subseries: Negatives, and Prints and Contact Sheets.

The Negatives subseries is a large set of corporate public relations negatives documenting a diverse range of RCA activity. Prominent themes are corporate meetings and publicity events, many of which feature David Sarnoff. Numerous projects, products, and other activities related to RCA are shown,

including work on the Apollo program and communications satellites, trade shows, documentation of manufacturing processes and technical research, and promotional material featuring consumer electronics or their components. RCA's participation in the 1964 New York World's Fair is also featured. Additional events, such as award dinners, birthday celebrations, and other occasions significant to David or Lizette Sarnoff, or their son Robert, are also represented.

The Prints and Contact Sheets subseries contains photographs and negative contact sheets that represent a small subset of the images found in the Negatives subseries. Photographs include such diverse subjects as, the Viking and Explorer spacecraft, avionics systems, CB radio, video games, video tape recording, the TIROS-N weather satellite, television sets, parts, and manufacturing, and Videodisc. RCA divisions and locations represented include, Automated Systems Division, Burlington, MA; Lancaster, PA, Solid State Division; Astro & Electronics Division, Moorestown, NJ; Astro-Electronics, Hightstown, NJ; Indianapolis, IN; Scranton, PA; Hertz Car Rental; Mountain Top, PA; Bloomington, Indiana; Circleville, OH; and the Government Services Division. Some noteworthy RCA personal included are, James Hillier, Roy Pollack, and Anthony Lee Conrad, as well as several celebrities, such as John Denver, Tony Bennett, Arthur Ashe.

Arrangement

The original arrangement of this collection was maintained during processing. The RCA News and Information Department photographs are arranged alphabetically by subject, according to the organizational scheme created by RCA. The Carl Byoir & Associates series of negatives is arranged numerically by their originally assigned RCA image numbers.

Administrative Information

Audiovisual Collections and Digital Initiatives Department

2015.

Finding aid prepared by Kenneth Cleary.

Sponsor

The collection was processed with support from the Council on Library and Information Resources (CLIR) Cataloging Hidden Special Collections and Archives grant.

Access Restrictions

Access restrictions may apply; please contact staff in advance of research visit at askhagley@hagley.org for instructions on how to apply for access to material.

Negatives and slides are housed in cold storage and must reacclimate prior to viewing (Boxes 12-40 and 44-52). Please contact the Audiovisual Collections and Digital Initiatives Department at least 48 hours in advance of research visit.

Provenance

These materials were originally maintained by the RCA News and Information Department at 30 Rockefeller Center, New York City, New York. They were transferred by RCA Photo Librarian Frida Schubert to the David Sarnoff Research Center in Princeton, New Jersey, when the News and Information Department was closed in 1986.

In 2009, along with the rest of the archival collections of the David Sarnoff Library, this collection was donated to the Hagley Museum and Library.

Related Materials

Related Material

The RCA News and Information Department photographs are part of the David Sarnoff Library collection (Accession 2464). The collection includes nineteen other finding aids:

Consumer electronics history collection (Accession 2464.79), Manuscripts and Archives Department, Hagley Museum and Library.

David Sarnoff Library records (Accession 2464.73), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

David Sarnoff Research Center records (Accession 2464.09), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

Charles B. Jennings photographs, scrapbook boards, and other materials (Accession 2464.21), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

Alexander Magoun advertising collection (Accession 2464.81), Manuscripts and Archives Department, Hagley Museum and Library.

Marconi Wireless Telegraph Company of America engineering drawings (Accession 2464.83), Manuscripts and Archives Department, Hagley Museum and Library.

RCA Astro-Electronics Division records (Accession 2464.70), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA Camden records (Accession 2464.76), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA Corporation collection of television and company history photographs and audiovisual material (Accession 2464.78), Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA Harrison records (Accession 2464.71), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA Missile and Surface Radar Division photographs (Accession 2464.31), Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA product information (Accession 2464.77), Manuscripts and Archives Department, Hagley Museum and Library.

RCA publications (Accession 2464.82), Manuscripts and Archives Department, Hagley Museum and Library.

RCA Solid State Division records (Accession 2464.75), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

RCA technical reports (Accession 2464.69), Manuscripts and Archives Department, Hagley Museum and Library.

RCA/Thomson Lancaster records (Accession 2464.74), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

Records of other RCA divisions (Accession 2464.80), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

David Sarnoff papers (Accession 2464.55), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

Robert W. Sarnoff papers (Accession 2464.04), Manuscripts and Archives Department and Audiovisual Collections and Digital Initiatives Department, Hagley Museum and Library.

Separated Material

A series of David Sarnoff publicity photographs that were originally part of the RCA News and Information Department photographs, was separated and moved to the David Sarnoff papers collection (Accession 2464.55). Our decision was made in part due to our knowledge of David Sarnoff's role in selecting and approving these images.

Microwaves, installation, 1961. .	AVD5	24
Microwaves, installation, 1961. .	AVD44	46
Microwaves, Western Union U.S. transcontinental system, circa 1960-1962. .	AVD5	25
Microwaves, Western Union U.S. transcontinental system, circa 1960-1962. .	AVD44	47
RCA Aerospace Systems Building Management System, circa 1980. .	AVD5	26
RCA Aerospace Systems, space programs - Apollo 15, circa 1969. .	AVD5	27

VIII.. RCA Divisions (excluding RCA Labs)

RCA American Communications, buildings and grounds, groundbreaking - Forrestal Center, Princeton, New Jersey, circa 1979-1980. .	AVD5	28
RCA American Communications, communication services, circa 1976-1986. .	AVD5	29
RCA Astro Electronics, satellite programs - Atmosphere Explorer, 1973. .	AVD5	30
RCA Astro Electronics, satellite programs - Hydrogen Clock, 1976. .	AVD5	31
RCA Astro Electronics, satellite programs - Satcom, 1976, 1980. .	AVD5	32
RCA Astro Electronics, satellite programs - Spacenet, 1984. .	AVD5	33
RCA Astro Electronics, satellite programs - television camera for ATS satellite, 1967. .	AVD5	34
RCA Astro Electronics, satellite programs - television camera for EROS satellite, 1967. .	AVD5	35
RCA Astro Electronics, satellite programs - TIROS, weather satellite, 1960-1982. .	AVD5	36
RCA Astro Electronics, satellite programs - TIROS, weather satellite presentation, 1975. .	AVD5	37
RCA Astro Electronics, space photography, circa 1962-1973. .	AVD5	38
RCA Astro Electronics, space programs - color television camera, circa 1967-1972. .	AVD5	39
RCA Astro Electronics, space programs - dielectric tape camera, 1966. .	AVD5	40

VIII.. RCA Divisions (excluding RCA Labs)

RCA Astro Electronics, space programs - magnetic tape recorder, circa 1969. .	AVD5	41
RCA Astro Electronics, space programs - Ranger, 1964 July 31. .	AVD5	42
Scope and Contents note		
Includes Dr. Elmer W. Engstrom congratulating engineers and technicians for successful Ranger 7 mission.		
RCA Astro Electronics, space programs - television camera for Apollo 7 and 8., circa 1969. .	AVD5	43
RCA Astro Electronics, space programs - 20th anniversary in space, 1978. .	AVD5	44
Scope and Contents note		
Includes press release and summary of space programs in which RCA participated.		
RCA Astro Electronics, space programs - vacuum chamber testing, 1961. .	AVD5	45
RCA Astro Electronics, testing and equipment, circa 1969-1976. .	AVD6	1
RCA Automated Systems, RCA contributions, 1983. .	AVD6	2
RCA Commercial Communications, Meadow Lands, Pennsylvania, circa 1975. .	AVD6	3
RCA Communications, electronic telegraph system, 1964. .	AVD6	4
RCA Consumer Electronics, design center, 1972. .	AVD6	5

VIII.. RCA Divisions (excluding RCA Labs)

RCA Defense Electronics Projects, Cambridge, Ohio facility, 1961. .	AVD6	6
RCA Distributor and Special Projects, history, circa 1984-1986. .	AVD6	7
RCA Electromagnetic and Aviation Systems, Radar, circa 1973. .	AVD6	8
RCA Electron Tube Division, Nuvistor tube, 1959. .	AVD6	9
RCA Electronics Products Division, commercial products, circa 1966. .	AVD6	10
RCA Frequency Bureau, circa 1953-1958. .	AVD6	11
RCA Globcom, video communications - Videovoice, 1971. .	AVD6	12-13
RCA Government and Commercial Systems, RCA contributions, 1974. .	AVD6	14
RCA Government and Commercial Systems, Space Programs - Apollo Soyuz test project, 1975-1976. .	AVD6	15
RCA Government and Commercial Systems, Space Programs - RCA contributions, 1975. .	AVD6	16
RCA Government Communications Survival Avionics System, military survival radio, 1980-1981. .	AVD6	17
RCA Institutes, lab experiments, undated. .	AVD6	18
RCA Manufacturing, transcription turntables, X-ray diffraction and spectroscopy equipment, circa 1937-1965. .	AVD6	19
RCA Manufacturing, Liege, Belgium facility, circa 1970. .	AVD6	20
RCA Missile and Surface Radar, microwave radar, circa 1976-1988. .	AVD6	21

VIII.. RCA Divisions (excluding RCA Labs)

RCA Missile and Surface Radar, microwave radar - Aegis System, circa 1973-1983. .	AVD6	22
RCA Missile and Surface Radar, microwave radar - Ballistic Missile Early Warning System, 1950-1969. .	AVD6	23
RCA Missile and Surface Radar, microwave radar - Range Instrumentation Systems, circa 1950-1969. .	AVD6	24
RCA Missile and Surface Radar, microwave radar - Apollo Program, circa 1960-1970. .	AVD6	25
RCA Missile and Surface Radar, microwave radar - Tradex Program, circa 1965. .	AVD6	26
RCA Missile Electronics and Controls, Burlington, Massachusetts facility, circa 1958. .	AVD6	27
RCA Palm Beach Division, circa 1974. .	AVD6	28
RCA Radio, marine - dead reckoning analyzer, 1959. .	AVD6	29
RCA Radiomarine, regulations, 1928. .	AVD6	30
RCA Service Company, Eastern District Service Station, circa 1926. .	AVD6	31
RCA Service Company, history, 1986. .	AVD6	32
RCA Service Company, product testing, 1952. .	AVD6	33
RCA / Sharp Microelectronics, 1986. .	AVD6	34
RCA Solid State Division, history, 1985. .	AVD6	35

VIII.. RCA Divisions (excluding RCA Labs)

RCA Technical and Testing Department, Van Cortlandt Park Lab, New York, circa 1920-1930. .	AVD6	36-37
RCA Transoceanic Stations, New Brunswick, New Jersey, 1921, 1981. .	AVD7	1
Scope and Contents note		
Includes David Sarnoff, Albert Einstein, Nikola Tesla, Charles Steinmetz, and Ernst F. W. Alexanderson		
RCA Victor, Camden, New Jersey facility, circa 1943. .	AVD7	2
RCA Victor, China facility, circa 1935. .	AVD7	3
RCA Victor, Harrison, New Jersey facility - transistor manufacturing, circa 1953, 1973. .	AVD7	4-5
RCA Victor, Harrison, New Jersey facility - transistor manufacturing, circa 1953, 1973. .	AVD44	48
RCA Victor, Harrison, New Jersey facility - phonograph and stereo sets, circa 1960-1962. .	AVD7	6
RCA Victor LTD, microwaves - Canada-Alaska system, 1960-1962. .	AVD7	7
RCA Victor LTD, microwaves - Canada-Alaska system, 1960-1962. .	AVD44	49
RCA Wall Street Systems Center, computer systems, 1970. .	AVD7	8
RCA West Coast Electronics Center, "Strength through Electronics" program, 1960. .	AVD7	9
Satellite Communications, Federal Communications Commission proposal, 1961. .	AVD7	10

IX.. RCA Labs

Sonar, RCA contributions, circa 1950. .	AVD7	11
Weapons Research, missile tracking at sea, circa 1963. .	AVD7	12

IX.. RCA Labs, 1950-1986.
